

# Sea Lion Facts

- Sea Lions have external ear flaps or "pinnae"
- They are noisy barkers
- They like to congregate in gregarious groups
- They have skin-covered, elongated fore flippers and they can rotate them under their body allowing them to "walk" on land

# Seal Facts

- Seals have furry, stubby foreflippers
- They meow, snort or do soft grunts
- They have no ear flaps or "pinnae"
- Their flippers cannot be used for walking and they scoot on their bellies on land

NATIONAL  
MARINE MAMMAL  
FOUNDATION
